V-Squared Kennels Safe. Attractive. Secure.

- Modular design is quick and simple to install and is easily reconfigured to meet changing needs.
- Convenient latch secures at both the top and bottom from a single, pet resistant flip-latch. The gate panel can be padlocked and adapts for left or right hand installation.
- When installed as recommended, the gate only swings inward, conditioning your pet to stand back from the gate rather than charging it when opening.
- Great for dogs, cats and other pets.

NOTICE – READ BEFORE PURCHASE:

Not all pets can be trained for containment. Larsen Innovations LLC CANNOT guarantee that the kennel will contain a pet in all cases. If for any reason you believe that your pet could pose a danger to himself or others if it were able to breach the kennel you should not rely exclusively on the kennel for containment. In ALL cases pets should be monitored when first introduced to the kennel. Larsen Innovations LLC shall NOT be liable for any property damage, economic loss or any consequential damages sustained as a result of any animal breaching the system. If you are unsure whether this is appropriate for your pet, please consult your veterinarian or certified trainer.

V-Squared™ Kennels—because pets are family.

Minimal gaps between panels eliminate the temptation to put paws and noses through, reducing the risk of injury.

Ordinary kennels have large tempting gaps that can entrap heads and paws.

V-Squared Kennel's all-welded construction is more secure. The attractive design blends easily and unobtrusively with your landscaping.

Other kennels are easily compromised, secured only with clips and tie wires.

Too often pet owners only consider the need to keep their pet in, forgetting that other pets or wild animals often pose a threat. Give your pet a safe place to enjoy the outdoors.

Uncompromised design, at an affordable price.

SAFER

Close clearances at all connections minimize the temptation to escape.

ATTRACTIVE

Contemporary style compliments your landscaping. Available in pet safe galvanized or polyester powder coated finishes.

SECURE

All-welded construction with integrated frame creates a unitized panel.

STRONG

V-Squared's Patent Pending 4-gauge wire frame provides strength yet remains visually unobtrusive.

VERSATILE

Easily adaptable for installation on turf or on hard surfaces.

ADAPTABLE

Expand your kennel with additional panels. Add a top, a shade screen, or a roof.

AFFORDABLE

V-Squared Kennels are the industry's BEST VALUE!

Wire ends and bolt ends are oriented away from your pet. All wires are cut flat rather than snipped, minimizing sharp points that can injure.

Exposed ends and dangerous sharp points are common on other kennels.

The kennel is easily raised by using the extended bolt leg to make cleaning simple on hard surfaces. Install the bolt in the other direction to place the kennel flat on the turf reducing the temptation to dig. An anchor bolt can be substituted to secure your kennel to pavement.

Other kennels come either raised or flush to the ground without the flexibility to adapt to changing needs.
